Admin

1. The top part has been cut out, Need to make it pop up (the box)

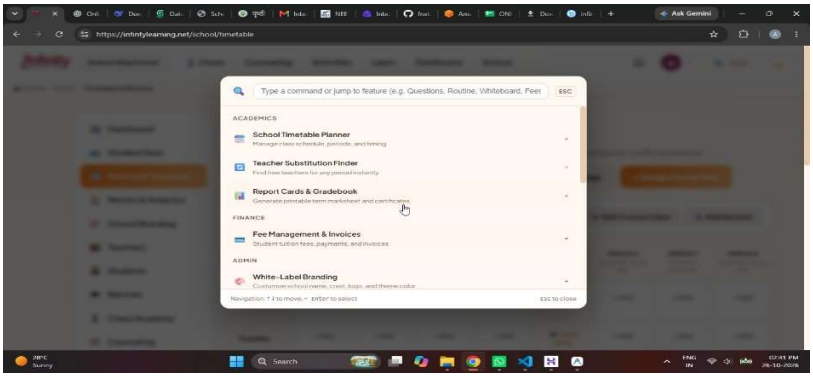

2. In student registration the grade will be in a dropdown format from timetable format class format.

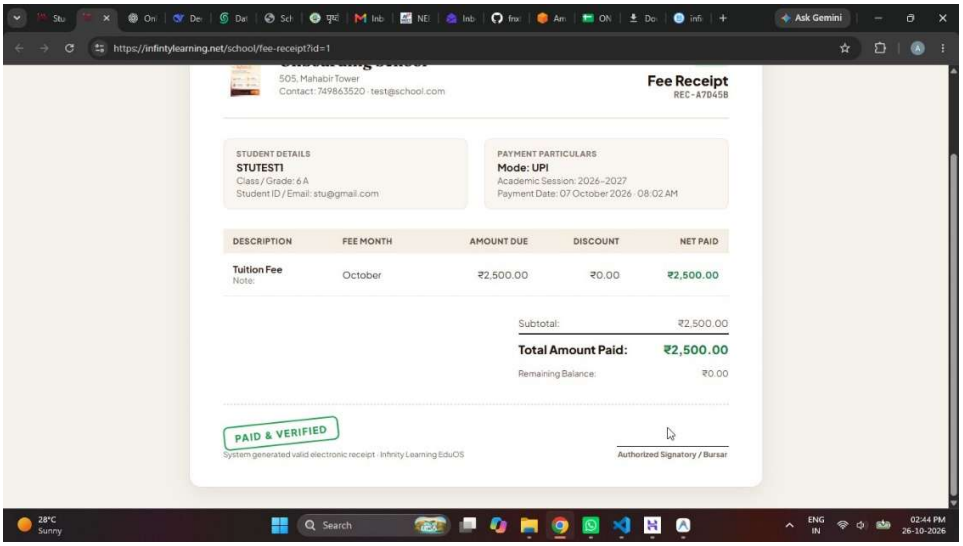

3. Need to add scroll. Funtioin on the side bar (same feature for student and teacher)

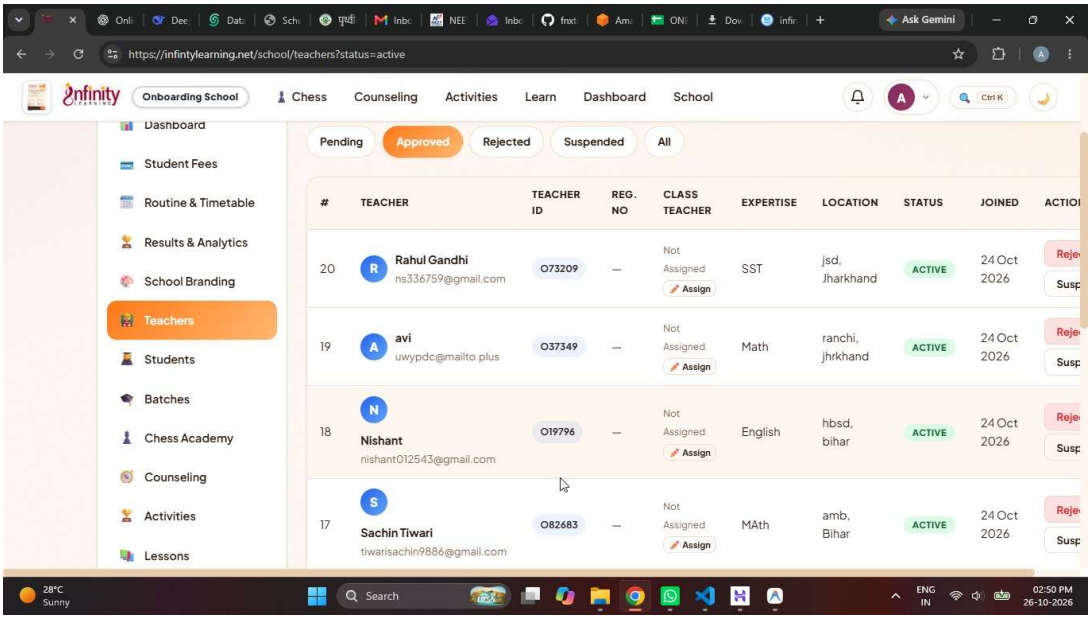

4. In this box we cannot go up and down using the arrow key.

5. In fee recipt need to add all different types of part that leads to the total amount fee breakdown, also the principle signature that I uploaded need to see in the authorized signatory, or the authorized person can also upload their image so we need to create a new upload system where the authorized person can upload their signature and is reflected on the reciept page.

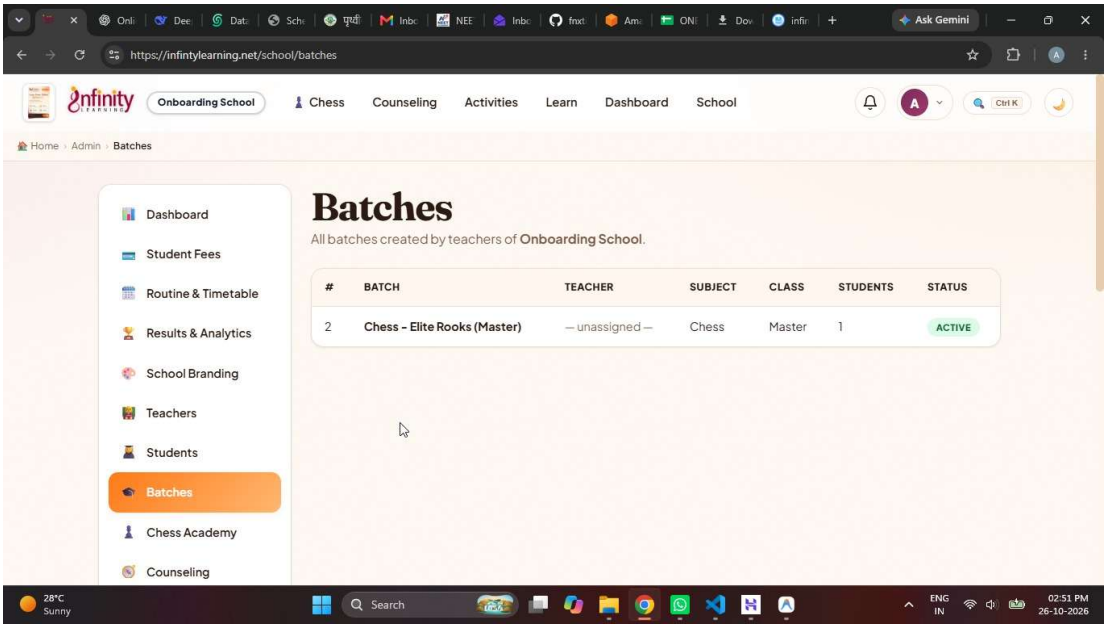

6. is different it should be in order from 1 and move frowerd form there (also in student).

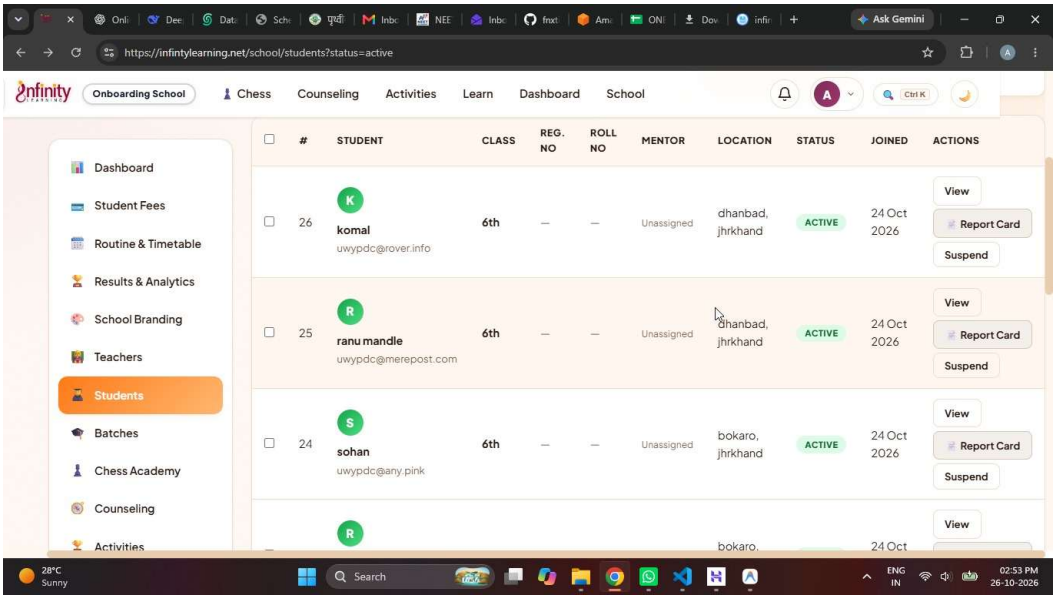

7. Batches can be only created by admin and not teacher also change the name form batch to class and I cannot see the different batch which is already present.

   The the function of batch can be edited and changed by admin only.

8. Admin can change the student details when they click on view they should get an option of edit profile of each and every student.

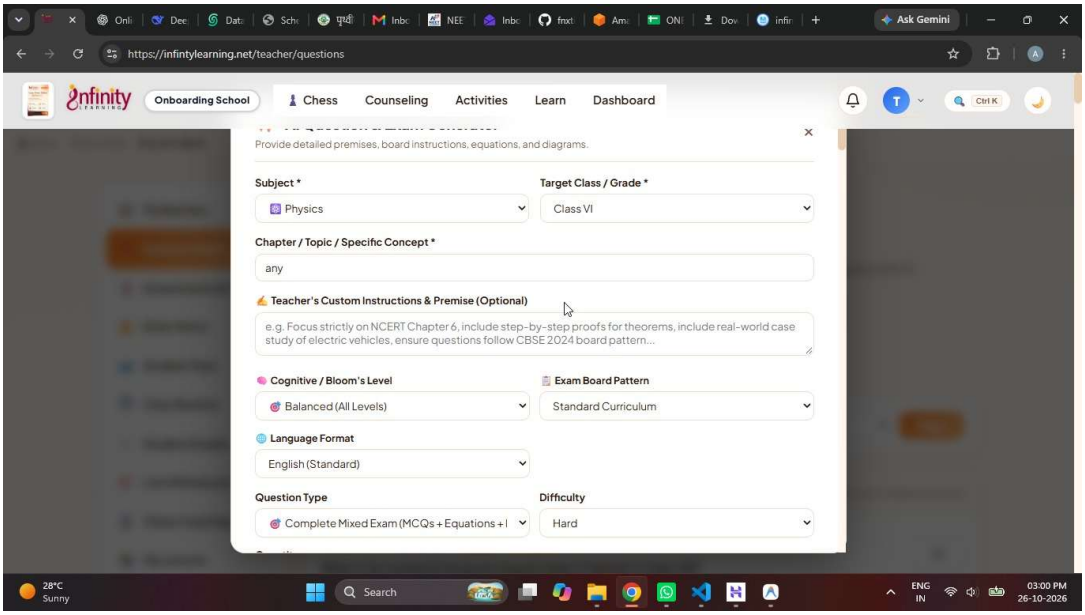

9. The developemnt profile works perfectly on admin but not from student dashboard make sure it works properly.

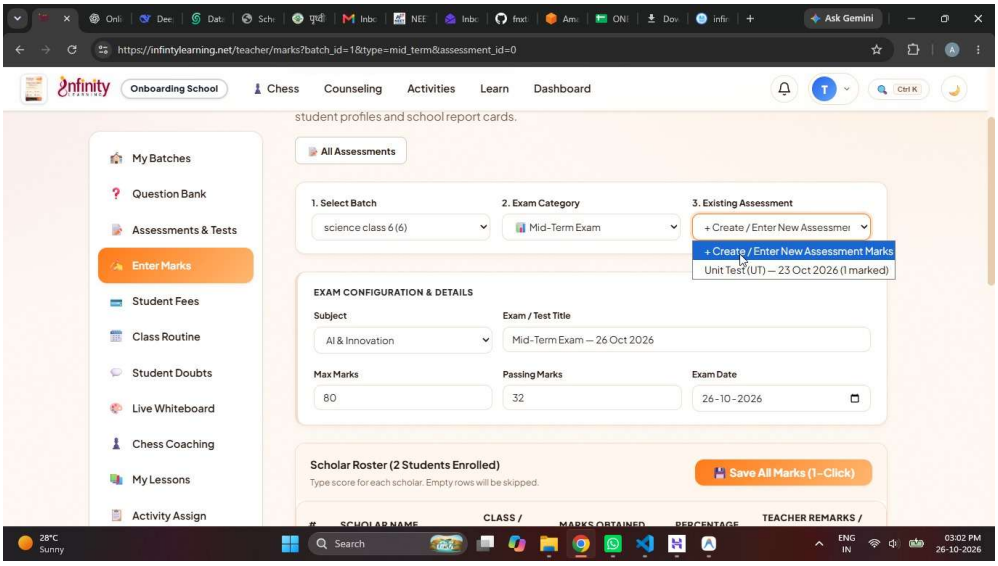

Teacher

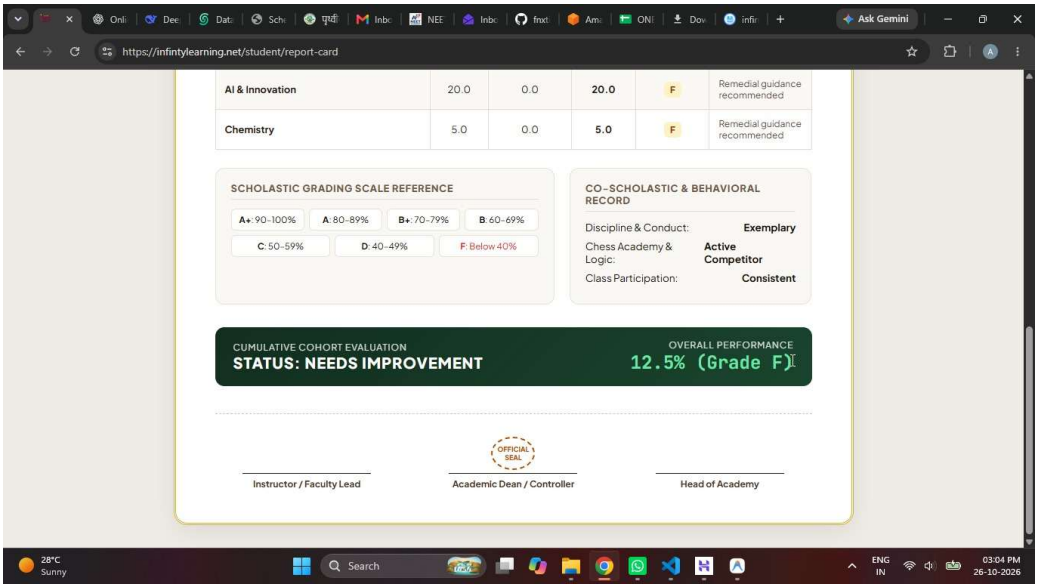

1. Same issue the top of the box get cut it need to be above the nav bar.

2. when click on +create/..... we can create new assessment.

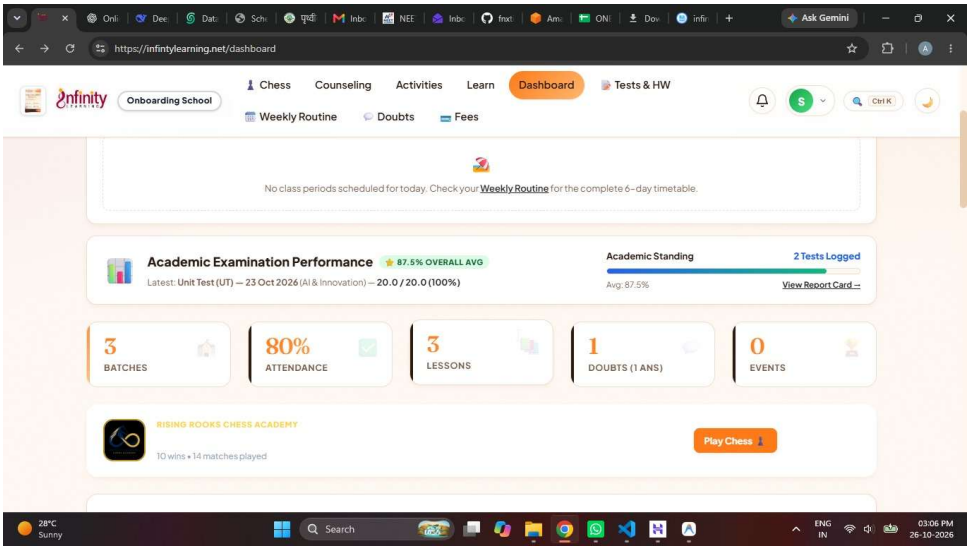

3. In teacher profile we need to add a button to let teacher upload their signature, insted of head of academy it will be principle signature and it will populate autometaclly.

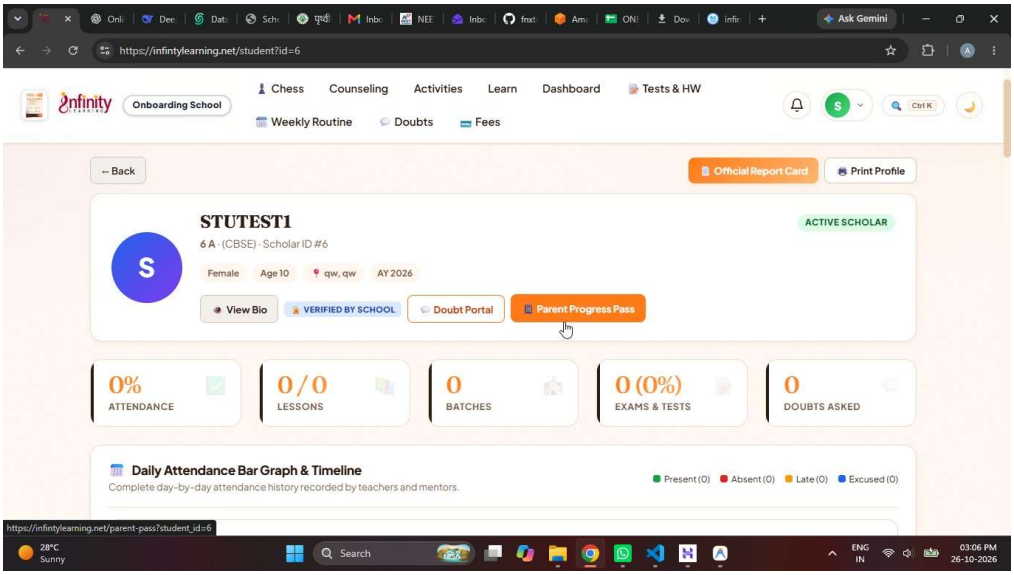

Student.

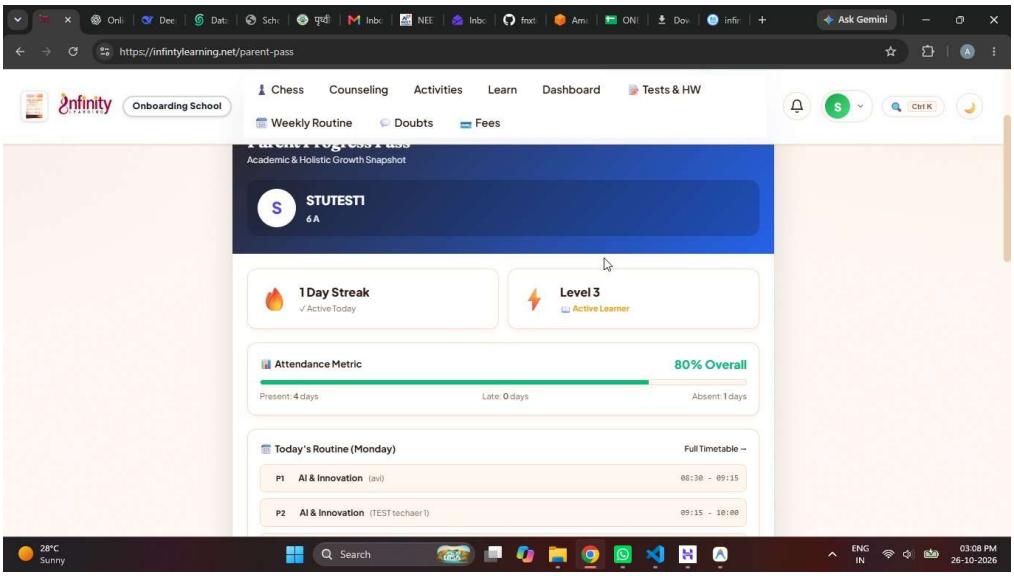

1. **This is student dashboard**

2. But in student developemnt profile I cannot see any details.

3. In parent pass we do not need routine insterd this will be the gaph of marks trend and the attendance will be also in graph formate (bar).

4. From bar graph the word will be graph.
